Gotham served as construction manager for a new 43-story, 428,000 sf, multiuse tower complex on the Mount Sinai campus. The project consists of 5 floors of faculty practice areas; 3 floors of mechanical spaces that will service Mount Sinai's new Center for Science and Medicine; an amenities area on the 10th floor overlooking Central Park North that includes a gym, pool, and lounge area; and 48 luxury rental apartments.
